extender

PURPOSE:

Use with America's Best Liquid Soybean Inoculant products for extended planting windows and increased compatibility with approved seed treatments.

DIRECTIONS FOR CUSTOM APPLICATION:

Measure appropriate amount of ABI Extender and mix together with inoculant in the applicator mix tank or other suitable container. Continuous agitation is desirable, especially if approved seed treatments are included in the mix tank. Many pesticides are injurious to inoculant rhizobia, so carefully observe tank mix time restrictions.

PESTICIDE COMPATIBILITY & PLANTING WINDOW:

Some seed treatments are harmful to inoculants and either prohibit the co-application with inoculants, or significantly reduce the planting window allowed. For current recommendations, please refer to www.americasbestinoculant.com or www.abm1st.com or contact ABM at (877) 617-2461.

QUANTITY SEED TREATED:

One 40 ounce bottle treats 8,000 lbs. seed (160x50 lb. units). This is the same quantity treated by the 2.65 gallon (10L) jug of America's Best Inoculant.

STORAGE INSTRUCTIONS:

- STORE in a cool place.
- DO NOT allow to FREEZE

SEED STORAGE INSTRUCTIONS:

Treated seed should be stored in a cool place out of direct sunlight. Observe planting window recommendations. If planting window is exceeded, reapplication of inoculant is necessary.
